PROSPECT ACADEMY

SECURITY SURVEILLANCE MANAGEMENT (SSM)

SEC-TEM-2004-1.1
Ref Number: TGS-2023035614

INTRODUCTION

Prospect Protection's **Security Surveillance Management (Perform Remote Surveillance Function) (SSM)** is to introduce the learners to the private security industry at the Senior Security level, with enhancements made to the technical skillset of a Senior Security Officer. The learning units is deliberately sequenced in this manner to enhance the learning effectiveness and it is based on the profile and job role of a Security Officer.

COURSE RELEVANCE

This programme is one of the mandatory courses required by the Police Licensing & Regulatory Department (PLRD) for a Senior Security Officer to complete prior to deployment.

LEARNING OUTCOMES

Through this course, learners will be equipped with the knowledge and skillsets required of a Senior Security Officer. This includes being able to obtain and record surveillance information accurately using appropriate surveillance equipment in accordance with relevant legal and organisational requirements.

Officers would be able to perform remote access surveillance functions using security software programmed and equipment such as CCTV, computers, recorders and monitor.
