# OPERATE BASIC SECURITY EQUIPMENT (OBSE)

**SEC-TEM-2001-1.1**
**Ref Number: TGS-20221007118**

## INTRODUCTION

Prospect Protection's **Access Control Management (Operate Basic Security Equipment)** course covers the knowledge, skills and attitudes required of a security personnel to operate an access control system to safeguard the property that he or she is looking after. It equips learners to apply appropriate procedures to operate basic security, access control, alarm monitoring and closed circuit television (CCTV) monitoring equipment at the workplace.

## COURSE RELEVANCE

This is one of the two mandatory courses required by the Police Licensing & Regulatory Department (PLRD) for Security Officers (SO) to be upgraded to Senior Security Officers (SSO).

## LEARNING OUTCOMES

Identify the pedestrian and vehicle access points of entry and exit for different levels of authorised entries

Operate access control equipment in accordance with organisation procedures

Manage the particulars of authorised personnel and vehicles in activating access and handling automated visitor management, biometric and number plate recognition systems

Complete the relevant documentation relating to access control operations

Operate alarm monitoring equipment under day and night conditions
